PREFACE

This OAR supplement, prepared by Army, Navy, CIA, and Air Force, revises and augments information presented in OAR 3045 (PAR 672-61/Z), dated 23 April 1961. Targets are arranged by coordinates, reading from south to north and from east to west, within four categories -- airfields, military activity, naval activity (includes port facilities and commercial shipping), and miscellaneous.

The first line for each target in the listing provides: 1) the installation name, 2) coordinates, to the nearest minute, of the installation, 3) the WAC area, 4) the BE installation number, and 5) the OAR installation number. Succeeding lines provide a brief description of the target.
